Choose Course Registration in Registration section.

Set if you want to book physical education activity or other courses!

Choose **New, by offering**

You'll see the **courses offered for this semester**: course code, title of course, credit points allocated for the course, under „Max. létszám” the first number is how many places are taken, the one behind the „/” is the headcount limitation. If you see „NK” then there is no limitation. Next column is the total number of classes, then the teacher in charge and the time of the class – if given by the teacher. The timetables of the obligatory courses can be downloaded from the UPMS website (<http://aok.pte.hu> English → Students → Timetables).

In ETR3 it is possible to **order the lists** by clicking on the title in the heading (grayish row).

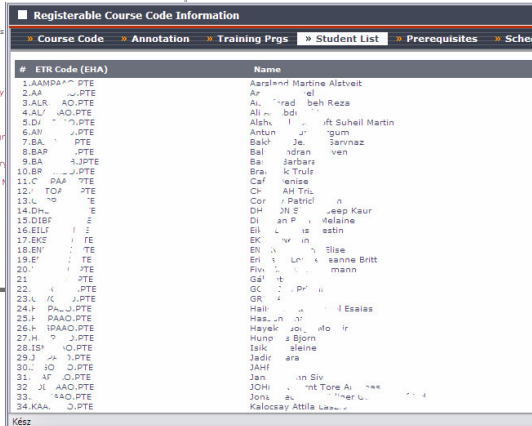

If you see more than one copy in a course (here an example: Physical Basis of Biophysics) means there are **more than one group** announced: choose only one of them!!
When booking PE activity, check the course code to find out, if it is for PE 1st part or PE 2nd part or ...: the number after ATT gives you this info.

If you want to **learn more** about the course, click on the title of it. A pop-up window will give you several info.

Even it lists your fellow students...

To choose a course for booking, click on the box next to the code of the course. It will turn into a box with a tick.

When finished ticking them, click on the **Felvétel** top or the bottom of the site!

A pop-up window will inform you if the procedure was successful or not:

Course listed under „Registered courses” are the ones which you booked successfully. They will appear on your actual course list-page.

„A tantárgy előfeltételei még nincsenek teljesítve! A még nem teljesített előfeltétel-tantárgy(ak): „ Means

The prerequisites of the course has not been completed. The following prerequisites are not completed.

After closing the pop-up window you'll see you were redirected to the **list page**. The courses listed here are the ones you have already booked.

The screenshot shows the 'Course Registration' interface. At the top, there are buttons for 'Close' and 'Check Completeness'. Below that, there are navigation tabs: 'Show Registry Sheet', 'Training Program details', and 'All courses announced'. A red banner states 'Course registrations are NOT CLOSED.' Below this is a table of registered courses with columns for Code, Title, FF.Pattern, CourseType, Teacher, time, H/C, Headcount, Status, and Procedure. The table lists several courses including Bioinorganic Chemistry, Biochemistry 1, Physiology 1, Poisonous mushrooms, Hunger, Satiety And Disturbances Of Body Weight Regulation, Intercultural Communication in the Field of Medicine, Medical English 2/a, and Medical Hungarian 3. At the bottom, there is a red warning message: 'FYI: Period for course registrations starts: 30 08 2008 08:00 and ends: 05 09 2008 12:00. Period for deregistering courses starts: 30 08 2008 08:00 and ends: 05 09 2008 12:00. Registrations and de-registrations are allowed only in the dedicated period. Please take care of closing your registrations, because unclosed registrations might be deleted after the registration period ends. If your registrations are closed, you cannot neither register nor de-register courses.'

Remember: if you are not signed up for a course in ETR – you don't have it. No matter, if your name appears on the „teacher's list". Truly, I have no idea what kind of lists they use. Not in ETR – no grade, no credit, no class!

If you change your mind and want to get rid of a course (**cancelling or dropping it**), click on the  sign.

A pop-up window will ask you to verify the action (sorry, it is Windows...). The results are shown in a pop-up window. (Just as I told you – if you do not allow pop-ups, you won't be able to work with ETR.)

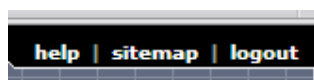

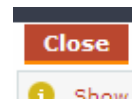

This screenshot shows a confirmation dialog box with the text 'Az oldal a(z) https://www.tr.pte.hu helyen azt ... Are you sure to delete course registration: ?OAE+HU3-T?'. There are 'OK' and 'Mégse' buttons. In the background, the course list is visible. To the right, a 'Messages' window is open, showing a list of course codes and their status (OK).

When you are sure – rechecking your list again – that there are no further courses you want to book or drop, two steps are to do:

Check completeness: if there were parallel prerequisites („taken up”), it checks them now.

The screenshot shows the 'Check Completeness' button highlighted in red. A messages window is open, displaying a list of course codes and their status: OAE-BSK-T OK, OAE-BK1-T OK, OAA-EL1-T OK, OAF-GOM-T OK, OAE-EHS-T OK, OAF-INK-T OK, and OAE-ANA-T OK.

Finally: **close down the booking**. If you do not do it, you won't be able to book exam dates for any of your courses!

Make sure you leave the ETR by clicking on **logout** at the right top part of the site!
