Want to be passive?

You can have two passive semesters after each other.

To have a passive semester simply make your semester passive between August 04 (08:00) – September 05 (12:00) on the ETR.

Once you made your semester active, you have the right to make it passive until September 26. Written request is needed.

Cases of dismissal:

- **you booked a course three times and still not able to complete it (even electives and optionals – except for criterion requirements)**
- this would be the third time you set your semester passive after each other, or
- for two semesters you haven't set your semester either active nor passive, or
- you couldn't finish studies within 24 (general medicine) or 20 (dentistry) semesters (actives + passives) counted from first matriculation.
