

## DECLARATION

In accordance with the *Code of Studies and Examinations* the fifth year students are obliged to enrol in the sixth academic year no later than the end of the spring semester's examination period (July 02, 2010).

One of the conditions of the enrolment is a certificate stating that (1) the student has already started preparing his/her thesis under the supervision of a consultant or (2) he/she has won a prize in a competition announced for student-researchers.

Changing the topic of the thesis after the enrolment results in the loss of chance for defending the thesis in the school year 2010/2011. The student will be allowed to defend his/her thesis and to sit for the Final Closing Examination only in 2011/2012.

According to the above-mentioned facts the fifth year students have to affirm or, in case of changes, to amend the previously submitted title of the thesis and the name of the consultant.

### Please use block capitals.

Student's name: .....

Title of the thesis: .....

Consultant's name: .....

Department/clinic: .....

Consultant's attestation: The student has already started working on his/her thesis.
