

### 3 year-PhD positions at Linz University

The Johannes Kepler University Linz (Austria) is establishing a Ph.D. programme in “Molecular bioanalytics – from molecular recognition to membrane transport” funded by the Austrian Science Fund (FWF). It offers interdisciplinary research and training in Biophysics, Analytical Chemistry, Applied Physics, Bioorganic Chemistry, Molecular Biology, Molecular Pharmacology as well as Computational and Applied Mathematics. Its scientific goal is to gain insight into the molecular picture (1) of how molecules are recognised on the membrane surface and (2) of how they are conveyed through membrane proteins. Please visit for more information on the individual projects.

We are seeking talented and committed individuals to join the programme. You will have an excellent master degree or diploma in the fields mentioned above. Preference is given to individuals younger than 28. Selection will be made during the “Linz Winter Workshop“ (, February 3rd - 7th, 2006) to which the best applicants will be invited.

We offer a gross salary of 22900 Euro per year.

Applications including covering letter, full c.v., and copies of the graduation certificate should be sent before January, 21st to the speaker of the program:

Univ.-Prof. Dr. Peter Pohl

Institute of Biophysics

A-4040 Linz

Altenberger Str. 69
