8. Within the framework of the Erasmus+ mobility for traineeship, Medical School students have the opportunity to complete their sixth year internships at clinics that they contacted individually and do not have a contract with the University of Pécs. Students who have not previously participated in the Erasmus program will be given priority in course of evaluation. Students who are not awarded a grant but are recommended by the institute/department responsible for the cooperation can participate even in the lack of a grant as self-funded students, so called **label students**, provided they can cover the costs of their travel and stay abroad from other sources.

Double financing of costs and expenses is prohibited.
