

**Will I be able to continue my studies within the framework of the Erasmus program?**

Yes, as an Erasmus student, you have the same rights as our undergraduate students, so if you have started an Erasmus+ mobility you can continue your studies through means of online education at our institution.

**Following the suggestions of my sending university/country of origin, I have to travel home. In this case, do I have to interrupt my Erasmus mobility for studies?**

Since distance education does not require physical presence, you can continue your studies from home. However, if you have the opportunity and decide to finish your semester at your sending institution, you can do so with reference to the epidemiological situation. Naturally, the required administration/documentation is still necessary and obligatory.

**How can I complete my clinical practices?**

Under the heading 'Coronaviral Information', our faculty is constantly updating information for students about their studies. Please consult the following link:

<http://aok.pte.hu/en/egyseg/almenu/9996/550>

**I had to interrupt my Erasmus Mobility for Traineeship, will I be able to continue once normal order is back?**

Please follow the instructions of your sending institution and let us know by email, during the course of the school year, if you wish to continue your interrupted professional practice after the epidemiological situation returns to normal. Of course, we will try to give you all the help you need, considering every option for continuation.
