

MEGHÍVÓ

**A Magyar Tudományos Akadémia
Orvosi Tudományok Osztálya
meghívja Önt a**

**„Selye Symposium - 2013”
tudományos ülésre**

Az ülés időpontja: 2013. május 8. (szerda) 10.00–17.00 óra között

A rendezvény helyszíne: Magyar Tudományos Akadémia Székháza
1051 Budapest, Széchenyi István tér 9.
Felolvasóterem és Kupolaterem

Programme

10:00 Welcome & introduction by László Vécsei (Chair, Medical Section, Hungarian Academy of Sciences.)

• Chairs: Árpád Somogyi & Sándor Szabó

10:15 – 10:30 László Vécsei² (Budapest/Szeged): Old and new neuroendocrine molecules: Somatostatin, pantethine and kynurenines

10:35 – 10:50 Sándor Szabó¹ (Long Beach/Irvine): Selye 70 years later: Steroids, ulcers & H. pylori

10:55 – 11:10 Sten Orrenius⁴ (Stockholm): On being a “Claude Bernard Visiting Prof.” in Selye’s Institute

11:15 – 11:30 Miklós Palkovits⁴ (Budapest/Bethesda): The Axelrod-Selye connection: Catecholamines & steroids

11:35 – 11:50 Yvette Taché^{1,4} (Los Angeles): Hans Selye contributions from glucocorticoids to “the first brain mediator of the stress response”: The discovery of CRF signaling pathways underlines Selye’s concept

11:55 – 12:10 Ludmila Filaretova² (St. Petersburg) & Gábor Makara (Budapest): The surprising dual action of glucocorticoids

12:15 – 12:30 Volker Jahnke^{1,3} (Berlin): The relevance of Hans Selye's work for the field of otorhinolaryngology

12.30-14.00 Lunch break

• Chairs: Yvette Taché & Klára Gyires

14:00 – 14:15 Árpád Somogyi^{1,4} (Berlin/Brussels/Budapest): Selye's concept of pluricausal diseases and its impact on regulatory science

14:20 – 14:35 Kálmán Kovács^{4,5} (Toronto): Stress in the classification of pituitary tumors

14:40 – 14:55 Klára Gyires² (Budapest): Central neuroendocrine mechanisms of gastroprotection

• Coffee break (15:00-15:15)

15:15 – 15:30 Lóránd Bertók³ (Budapest): The effect of stress on natural immunity

15:35 – 15:50 István Berczi³ (Winnipeg): Selye's legacy in neuroimmune biology

15:55 – 16:10 György Lázár³ (Szeged): Even visiting scientists could make discoveries in Montreal

16:15 – 16:30 Milagros Salas¹ (Montreal): The last years of Dr. Hans Selye

16:30-17.00 Round table discussion – Nyitott fórum kérdésekre, hozzászólásokra

Index of professional relationship to Hans Selye's institute at the University of Montreal (UofM):

- | | | |
|---|---|---|
| 1 | = | PhD and/or MSc student |
| 2 | = | Second generation of Selye student (i.e., collaborated with original Selye students or worked on similar research project) |
| 3 | = | Postdoctoral fellow or visiting scientist |
| 4 | = | “Claude Bernard Visiting Professor” at UofM and/or “Hans Selye Visiting Professor” at University of California, Irvine |
| 5 | = | Senior coworker of Hans Selye |
