

Decisions of the UP Operative Crew  
13 November 2020

**UP Operative Crew's resolution no. 1/2020. (XI.13.)**

The UP Operative Crew unanimously supports the University of Pécs University Library and the Knowledge Center's information regarding the services and possibilities of implementing "hybrid education" support and confirms that based on the rules of visiting the institutions of the University of Pécs - besides the strict observance of the restrictive provisions included therein - the University's teachers, researchers and students have the opportunity at a time agreed in advance with the faculty libraries to borrow documents and to bring them back in faculty buildings outside library spaces.

**UP Operative Crew's decision no. 2/2020. (XI.13.)**

The UP Operative Crew unanimously stated that the SARS-CoV-2 PCR test required for foreign students to travel home is not tied to the University studies, given that the University continuously provides both educational and accommodation opportunities. The cost of these examinations is not covered by the University, the examinations must be paid for at the official price determined by law.
