

Excerpt from the January 12, 2021 Operative Board meeting about university regulations concerning international students entering Hungary

Electronic decision-making procedure resolutions of the PTE Operative Board, January 12, 2021.

Resolution 1/2021. (I.12.) of the PTE Operative Board

The PTE Operative Board unanimously decided to strengthen its previous 5/2020. (VII. 28.) advice about operating the International Welcome Desk (in the following: IWD) for those international students, who wish to spend their obligatory official quarantine at the university dormitory.

The National Directorate and the Dormitory Centre will advise the detailed policies of the IWD (operating from January 27, 2021 until retraction of this resolution).

Resolution 2/2021 (I.12.) of the PTE Operative Board

The PTE Operative Board unanimously stands by its previous 6/2020. (VIII. 31.) viewpoint, with the addendum that the university only takes over the cost of SARS-CoV-2 PCR test conducted at the University of Pécs Clinical Centre for international students starting their studies in that semester or entering Hungary for study purposes, and only if they are taking the obligatory PCR tests prescribed by laws or regulations.
