

LSM 980 Tour Hungary 2022

Schedule August 23 - 25 | Pécs

Seeing beyond

Discover the newest updates & features of the ZEISS LSM 980!

ZEISS LSM 980 with Airyscan 2 is your Confocal for fast & gentle Multiplex Imaging. It combines excellent imaging performance with low phototoxicity and high speed. The system is optimized for simultaneous spectral detection of multiple weak labels with the highest light efficiency.

During the LSM 980 Tour 2022 you will have the possibility to try out the system with your own samples together with our expert. You will also get the chance to test the newest updates like LSM Plus, NIR and NLO.
