

Appendix E

Director's Advocacy Agenda

Senior Leadership is dedicated to assuring attendees and students a professional simulated healthcare education. The commitment to improving our approach to teaching and devoting ourselves to building upon our course instruction is paramount in fulfilling our 2025 Strategic Vision and is compliant with the Dean's Strategic Goals 2025.

Senior Leadership continues to coordinate and align its resources with the needs of the Medical School, conscious of the needs of the nation including portions of Central Europe.

The OKIK standards of quality positively influences its guests and students while steadfastly adhering to the professional policies and standards found in the world's leading realm of Simulated Healthcare.

Senior Leadership, staff and team members are committed to work together in assuring our constituents, guests, attendees and students all receive professional levels of medical education while advocating our Mission and fulfilling our Strategic 2025 Vision.
