

## BIOENGINEERING/ ENGINEERING TRAINEESHIP PROGRAM

Roche Diagnostics | Warsaw, Poland

Are you a student or fresh graduate?

Are you looking to gain practical knowledge in healthcare technology and sharpen business skillsets?

If yes, we at Roche are looking for Hungarian-speaking trainees to be part of our Regional Customer Support Center EMEA (Roche RCSC) in Warsaw, Poland. Joining the traineeship, you will be integrated into a multinational team to assist our experts in solving varied scientific application and technical issues related to Roche's advanced medical technologies currently utilized by hospitals and clinics across 7 countries.

*"Behind every machine there is a patient life."*

Through our work, we help doctors and healthcare professionals ensure stable laboratory workflows and recommend treatment solutions that deliver superior care to patients.

### What you will experience during the traineeship:

- Build on your knowledge of **medical diagnostics instruments** such as Serum Work Area (Clinical Chemistry), Hospital Point of Care
- Support Roche engineers to identify and troubleshoot instrument failures through remote access, by phone or in written form as a key contact point for **labs and research centers** (Roche's healthcare customers)
- Assist with on-site activities in Hungary or attend rotation training in Germany, Italy or the UK where applicable
- Participate in other projects as necessary

### The traineeship is for you if:

- You are currently a Bachelor's or Master's student, or recently graduated from one of these majors: Biomedical Sciences, Healthcare Technology, Biology, Electrical Engineering, Mechatronics, Chemical Engineering or similar programmes.
- You have fluent communication skills in Hungarian (mandatory) and good English proficiency (B1/B2).
- You have strong analytical thinking and a keen interest in problem solving.
- You are motivated to help people and to learn in a fast-paced multicultural environment.
- You use Microsoft Office Suite (Excel, Word, PowerPoint) at ease.
- You are eager to step out of your comfort zone and **gain experience abroad** with Roche.

### What we offer:

- A paid traineeship (appx. EUR800 or HUF270,000/ month) starting from 15th September or 1st October 2020, for minimum 3 months or ideally 6 months (40 hours/ week)
- A package covering the first 2 weeks of accommodation and travel expenses to Warsaw.
- Full access to Roche's medical instruments and systems for knowledge enhancement with basic and advanced training
- Mentoring from Roche RCSC seniors
- Possibility to work on-site across some locations in Hungary or attend training in Germany, Italy or the UK
- An international workplace where you will be surrounded by open-minded, knowledgeable experts
- Opportunity to be considered as the first candidate when a permanent position is opened in the team or in the local affiliate

Please note that the traineeship does **not** offer research or experiments in a lab but rather, insights into topics including Roche's in-vitro diagnostics instruments, technical support workflows and systems, work organization, implementation of new tools (including IT) from an industry perspective.

## About Us

**Roche Diagnostics in Poland** is located in the capital Warsaw as a modern, fast developing affiliate of the Roche Group. With more than 250 employees in the office and in the field, we are one of Roche's biggest affiliates in Eastern Europe.

**Roche RCSC EMEA in Warsaw** is a multinational team of engineering/ bioengineering specialists focusing on tackling scientific application and technical issues regarding Roche analytical systems for hospital and private laboratories based across Hungary, Poland, Czech Republic, Slovakia, Lithuania, Latvia, and Russia.

The **Roche Group**, headquartered in Basel, Switzerland, is active in over 100 countries and in 2019 employed more than 94,000 people worldwide. Genentech, in the United States, is a wholly-owned member of the Roche Group. Roche is also the majority shareholder of Chugai Pharmaceutical, Japan.

## Apply

To apply, please send your CV in English to Mrs. Ha Annie Nguyen at [ha.nguyen.hn2@roche.com](mailto:ha.nguyen.hn2@roche.com), with title "Traineeship, HU" specified in the email subject line.
